

Underwriting rule filing: Harbourline Mutual

Fictional sample filing for the Simrule academic prototype. Not a real insurer or rule.

Submitting Insurer: Harbourline Mutual

Date Submitted: 2024-12-02

Proposed Decline Rule: Decline to insure any applicant with 1 or more convictions for auto insurance fraud in the preceding 10 years.

Insurer's Stated Rationale: A conviction for auto insurance fraud is direct, proven evidence of moral hazard. A 10-year lookback matches the seriousness of the offence and current market practice for fraud convictions.

Rule Category: Claims / Fraud History

Definitions: Auto insurance fraud conviction means a conviction under the Criminal Code or the Insurance Act for fraud relating to an automobile insurance policy or claim.

Actuarial Support: Claims severity and frequency study, 2019 to 2023 book of business, attached as Exhibit B (not included in this demo file).

Consumer Notice: Declined applicants receive a letter naming the conviction relied on and explaining how to correct an inaccurate record.
